

BEHIND THE BIG-BANG

They tell us that the universe started from nothing...and is still expanding.

At each end of the vast timespan,
is the Alpha and the Omega of the universe,

We face a barrier of mystery
if we want to meet the One ...
who willed it all into existence...
...and who now sustains it.,

We need to lay aside our "instruments"
and listen for a Word.

A spoken Word.

The same Word that once proclaimed,
"Let there be light!"

In a world of cheap words
empty words,
deceitful words,
venomous words...

There is a Word that is True...

Pure Holy Life-giving.

*Blessed are the poor in spirit
For theirs is the kingdom of heaven.*

Blessed are those who know their spiritual poverty.
They alone have ears to hear the Word that sustains us all.
The Word that can raise us from death to life.
